

Fantastic Food — Teaching Program and Scope & Sequence

Year 7 / Stage 4 | 30 periods | Compact 10-point teacher edition

Course	Technology 7–8 — Food and agricultural practices	Unit	Fantastic Food
Cohort	Year 7 / Stage 4	Duration	10 weeks; 30 × 60-minute periods; 6 periods per fortnight
Assessment	Task 1 Healthy Lunchbox Project & Practical 60%; Task 2 Website Folio 25%; Task 3 Design Knowledge Task 15%	Issue timing	Start of term; exact Semester 1 or 2 due dates inserted before issue
Syllabus	NSW Technology 7–8 Syllabus (2023), mandatory implementation from 2026	Program status	v1.0 Local review Source-bound to the current Fantastic Food site and approved assessment structure

Course outcomes

Code	Outcome	Code	Outcome
TE4-SDP-01	explains relationships between sustainability, design and production	TE4-DES-01	communicates and evaluates design ideas and solutions
TE4-PDP-01	describes the practices and processes of designers and producers	TE4-SAF-01	selects and safely uses tools, materials, technologies and processes
TE4-MSD-01	explains how materials, systems and components contribute to solutions	TE4-DIG-01	demonstrates technological literacy to safely interact in digital environments
TE4-PPM-01	applies processes in the planning, management and production of projects	TE4-DIG-02	uses data and digital systems to code, design and produce projects

Teacher to confirm before delivery

ID	Decision / check	Owner	Due before
TBC-01	Confirm how the 30 periods are placed in the school timetable and which practicals run as consecutive double periods.	Class teacher / Head Teacher	Timetable release
TBC-02	Confirm class-specific allergies, dietary needs, approved ingredients, equipment, supervision and current risk controls.	Class teacher	Each practical and ingredient order
TBC-03	Resolve the muffin source conflict: the weekly program names Choc Chip Muffins while the supplied recipe master is Basic Muffins.	Steve / class teacher	Period 26 ingredient order
TBC-04	Insert the exact Semester 1 or Semester 2 due dates and confirm Google Classroom collection settings before notifications are issued.	Steve / Head Teacher	Start-of-term issue

Scope and sequence — Periods 1–10

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
1	Site / theory	Kitchen-ready orientation	Use M1-S1 to establish room expectations, safe participation and the practical-learning cycle. Complete the 10-question check and written response.	Safe practices; designer and producer practices.	M1-S1 check + response TE4-SAF-01, TE4-PDP-01
2	Site / theory	Personal hygiene	Teach M1-S2. Model a safe personal-hygiene routine, explain contamination pathways and complete the knowledge check and written response.	Safe food-handling processes; justify safe choices.	M1-S2 check + response TE4-SAF-01
3	Site / theory	Kitchen hygiene and hazards	Teach M1-S3, washing-up workflow and hazard controls. Complete required OnGuard activities nominated by the school before practical access.	Select and safely use tools, technologies and processes.	M1-S3 check + response; OnGuard record TE4-SAF-01
4	Site / theory	Reading recipes	Teach M2-S1 using the Lemonade Scones and Savoury Twists masters. Identify ingredients, quantities, method verbs, equipment and sequence.	Interpret food-production information; justify equipment and processes.	M2-S1 check + response TE4-PDP-01, TE4-MS-01
5	Practical	Lemonade Scones — prepare	Apply hygiene, accurate measuring and the authorised recipe method. Allocate roles and organise the workstation before production.	Use equipment, tools, techniques and processes to develop practical skills.	Teacher observation; M2-S2 measuring evidence TE4-SAF-01, TE4-PPM-01
6	Practical	Lemonade Scones — produce and evaluate	Complete production, clean down safely and compare the result with recipe intent. Complete the M2-S2 check and written response after the practical.	Produce and evaluate a food solution; demonstrate safe practices.	Finished product + evaluation; M2-S2 check/response TE4-SAF-01, TE4-DES-01
7	Site / theory	Six essential nutrients	Teach M2-S3. Connect nutrient functions and food sources, then complete the knowledge check, written response and Activity 3.	Investigate nutritional needs and characteristics of food products.	M2-S3 check/response; Activity 3 TE4-MS-01
8	Project / folio	Assessment and folio orientation	Unpack the three approved assessment tasks, issue dates, end-of-semester timing and evidence expectations. Establish Task 2 website/PowerPoint and the eight-stage folio.	Document and communicate design and production processes; safe digital interaction.	Assessment acknowledgement; folio setup TE4-DES-01, TE4-DIG-01
9	Site / theory	Workflow planning	Teach M3-S1 and use Activity 4 to build a role-aware workflow plan for Savoury Twists. Complete the check and written response.	Plan and manage food-production processes; work collaboratively.	M3-S1 check/response; Activity 4 plan TE4-PPM-01
10	Practical	Savoury Twists	Follow the authorised recipe and team plan. Apply safe workflow, monitor time, clean down and record one process improvement.	Select preparation techniques and production skills; test and improve products.	Product + workflow review TE4-SAF-01, TE4-PPM-01, TE4-DES-01

Scope and sequence — Periods 11–20

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
11	Site / theory	AGHE and adolescent needs	Teach M3-S2 using the five Australian Guide to Healthy Eating groups and adolescent needs. Complete the check, response and Activity 8.	Investigate nutritional needs of individuals and groups with specific needs.	M3-S2 check/response; Activity 8 TE4-MS-C01
12	Practical	Savoury Bread Cases	Produce the authorised recipe safely. Relate ingredient choices to food groups and adolescent needs; record a concise nutrition reflection.	Prepare food solutions; evaluate ingredient selection and nutritional value.	Product + nutrition reflection TE4-SAF-01, TE4-MS-C01
13	Site / theory	Recipe modification	Teach M3-S3. Compare Bread Cases and Garlic Cheese Flatbread, then justify a modification using nutrition, production feasibility and sustainability evidence.	Assess food-solution ideas; explain relationships between sustainability, design and production.	M3-S3 check/response; modification rationale TE4-DES-01, TE4-MS-C01, TE4-SDP-01
14	Practical	Garlic Cheese Flatbread	Produce the authorised recipe using an organised workflow. Compare the outcome with design intent and justify one improvement.	Use food-preparation techniques; evaluate quality of food solutions.	Product + improvement note TE4-SAF-01, TE4-DES-01
15	Site / theory	Balanced lunchbox	Teach M4-S1. Develop audience, need and success criteria for a balanced adolescent lunchbox. Complete the check and written response.	Apply critical and creative thinking to assess food-solution ideas.	M4-S1 check/response; criteria TE4-DES-01, TE4-MS-C01
16	Site / theory	Food order and organisation	Teach M4-S2. Prepare a complete food order, time plan and practical organisation record for the Healthy Lunchbox task. Complete the check and response.	Plan and manage production; justify equipment, processes and resources.	M4-S2 check/response; order + time plan TE4-PPM-01
17	Practical	Coconut Balls	Produce Coconut Balls from the authorised master. Apply safe hygiene and portioning, then record observations relevant to healthier fast-food redesign.	Develop practical skills; evaluate ingredient selection and preparation techniques.	Product + observation record TE4-SAF-01, TE4-MS-C01
18	Site / theory	Healthier fast-food redesign	Teach M4-S3. Redesign a fast-food idea using nutrition, producer-practice and sustainability evidence, then complete the check and written response.	Evaluate food solutions; explain relationships between sustainability, design and production.	M4-S3 check/response; redesign rationale TE4-DES-01, TE4-PDP-01, TE4-SDP-01
19	Project / folio	Website communication checkpoint	Develop Task 2 for an adolescent audience. Show how sustainability, producer practice and project planning shaped the solution; use clear navigation and safe digital choices.	Relate sustainability, design and production; plan and communicate solutions using digital systems.	Task 2 checkpoint + screenshot evidence TE4-SDP-01, TE4-PDP-01, TE4-PPM-01, TE4-DES-01, TE4-DIG-01, TE4-DIG-02
20	Project / folio	Healthy Lunchbox planning	Complete Task 1 design brief, criteria, food order, workflow and risk controls. Teacher checks feasibility before ingredients are ordered.	Document design processes; plan and manage production projects.	Approved Task 1 plan + folio stages TE4-PPM-01, TE4-DES-01

Scope and sequence — Periods 21–30

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
21	Project / folio	Knowledge check and practical approval	Use course checks and teacher feedback to address misconceptions. Confirm Task 1 practical readiness and rehearse individual design-knowledge responses.	Communicate design knowledge; justify selections and improvements.	Feedback record; approved readiness check TE4-DES-01, TE4-SAF-01
22	Practical	Healthy Lunchbox — production 1	Complete the first assessed production block using the approved plan. Apply hygiene, time management and safe equipment use; teacher records practical evidence.	Apply planning, management and safe production processes.	Task 1 practical observation TE4-SAF-01, TE4-PPM-01
23	Practical	Healthy Lunchbox — production 2	Complete production, presentation and safe clean-down. Photograph only the food solution within school privacy rules and collect evaluation evidence.	Produce and evaluate a food solution; document production processes.	Task 1 product + practical evidence TE4-SAF-01, TE4-DES-01
24	Project / folio	Evaluate and communicate	Teach M5-S3. Evaluate the food solution and communication tool using sustainability, production, project-planning, appeal and ease-of-use evidence; identify one improvement.	Communicate and evaluate design solutions, production relationships and digital user experience.	M5-S3 response; Task 2 evaluation TE4-SDP-01, TE4-PDP-01, TE4-PPM-01, TE4-DES-01, TE4-DIG-01, TE4-DIG-02
25	Site / theory	Fibre and water	Teach M5-S1. Connect fibre and water to healthy body function and adolescent food choices. Complete the check, written response and relevant recipe analysis.	Investigate nutritional needs and evaluate ingredient selection.	M5-S1 check + response TE4-MSC-01
26	Practical	Muffin practical — prepare	Use the teacher-confirmed muffin master to plan, measure and begin production. Do not order ingredients until the Basic Muffins/Choc Chip Muffins source conflict is resolved.	Select preparation techniques and safely produce food solutions.	Practical observation + method record TE4-SAF-01, TE4-PPM-01
27	Practical	Muffin practical — complete	Complete production and clean-down using the confirmed master. Evaluate method, texture and one evidence-based improvement; add the record to the folio.	Test, modify and improve food products; evaluate quality using design factors.	Product + evaluation TE4-SAF-01, TE4-DES-01
28	Project / folio	Design Knowledge Task	Administer the approved 45-minute individual in-class Design Knowledge Task under the formal notification conditions. Retain teacher marking and feedback records.	Apply sustainability, producer-practice, food-materials and digital knowledge.	Task 3 response /15 TE4-SDP-01, TE4-PDP-01, TE4-MSC-01, TE4-DIG-01, TE4-DIG-02
29	Practical	Fettuccine Carbonara — prepare	Teach M5-S2 within the practical briefing. Plan a safe sequence, prepare the authorised recipe and complete the embedded knowledge check.	Plan, manage and safely apply food-production processes.	M5-S2 check; workflow observation TE4-SAF-01, TE4-PPM-01
30	Practical	Carbonara and course completion	Complete Carbonara, safe clean-down and the M5-S2 written response. Finalise folio evidence and record Task 2 submission status for the applicable semester deadline.	Produce, document, communicate and evaluate design solutions.	Product + M5-S2 response; folio status TE4-SAF-01, TE4-DES-01
